FROM THE MARTHA LINK WALSH GALLERY • SPRING 2007

Springtime at the Martha Link Walsh Gallery

I like Winter. I like the crisp see-your-breath-in-the-air cold. I like the time to rejuvenate.

But I love Spring!
It's a time for
NEW BEGINNINGS.

I love to see the fresh color...the first crocuses and daffodils.

I love to make changes to feel a sense of renewal.

I love to plan new projects and surprises at my gallery.

Did you know...

The Greeks considered their goddess of Spring, Maia, a magician...witness to the change of the season.

The Romans worshipped Flora, the goddess of flowers, celebrating the colorful rebirth of Spring.

In China, their new year begins with the Spring Festivals when "good luck" red cut paper banners are hung by every doorway to scare away the winter and welcome Spring.

Polish peasants celebrated an enthusiastic welcome to Spring by gluing newly created vibrant paper cuttings on their cottage walls, using symbols of rebirth to transform their homes.
